

ICMAN

The Fifth International Conference on Mechanisms of Action of Nutraceuticals (ICMAN5)

13-15 October 2011 | Brisbane, Australia

Complementary Medicines | Functional Foods
Nutraceuticals | Traditional / Indigenous Medicines

13-15 October 2011 | Brisbane, Australia

ICMAN5 is set to attract leading international researchers, clinicians, pharmacists as well as industry and government leaders, to discuss the latest developments in mainstream science and clinical applications relevant to chronic diseases and conditions; and the impact on the development of therapies and prevention encompassing complementary medicines, functional foods, nutraceuticals and traditional/indigenous medicines, through plenary sessions, breakout seminars, and trade exhibitions.
